C++ | C | Java | HTML5 | CSS | JavaScript | NodeJS | React | MongoDB | Express js | Bootstrap | MySQL | GitHub | Data Structure | Algorithms

Education

Godavari college of engineering , jalgaon

2021 - 2024

Diploma in computer engineering.

Vivekanand Education Society's Institute Of Technology(VESIT), Mumbai

2024 - 2027

BE in computer engineering.

Projects

TurfPro

Revolutionizing turf management through technology

- Dynamic Turf Management System: Harnessing React, Node.js, Express, and MySQL to deliver a real-time application. Features include real-time turf availability display by city, seamless booking with customizable time slots, and more.

WanderLuxe

Explore the world in style.

- I have developed a website for booking villas using HTML, CSS, JavaScript, React, Node.js, Express, and MongoDB. It provides real-time availability of villas for users to easily check and book their desired stay. This platform simplifies the villa booking process, enhancing user experience and convenience.
